OBJECTIVE

Creative and efficacious young professional who thrives in a fast paced and collaborative environment. Seeking a position that challenges my skills in full stack development and pushes my limits to expand my knowledge. Passionate about simplifying complicated problems, collecting data, and designing strong client-side applications. Looking to leverage past design experience and bring a new prospective to a technical environment.

TECHNICAL SKILLS

- o React
- o Bootstrap
- o HTML
- o CSS
- o JavaScript & jQuery
- o Python
- o Node & Flask
- o SQL & Mongo
- o Web API's
- o InDesign, Photoshop, Illustrator

PROFESSIONAL SKILLS

- o Collaboration
- o Adaptability
- o Communication
- o Critical Thinking
- o Project Management

INVOLVEMENT

- o Women Who Code Twin Cities
- o Target Data Science Events
- o Grow with Google
- o Trilogy Education Workshops
- o Salesforce Trailblazer
- o Udemy Courses

EXPERIENCE

Store Planner | Target Headquarters
Mar. 2019 – Current
Collaborating with teams of designers, architects, and construction management to update store layouts and interior design. I assist with new Starbucks and Snack Bar rollouts, as well as redesigning layouts for majority of 2021 remodeled stores.
- Implemented an effective way to provide renderings helping store design make resources for training and remodels.
- lead resource for rendering based programs and graphics within Snack Bar, Starbucks, and Grocery.

Designer & Sales | Cliq Studios
Jan. 2018 – Mar. 2019
Managed client requests for kitchen remodels and drafted designs that fit their spatial and budget requirements.
- Exceeded individual sales goals by at least 20% every month while growing strong relationships with returning clients.
- Developed strong communication and project management skills by managing a portfolio of 50 on-going projects.

Service Manager | Chipotle
Apr. 2016 – Mar. 2018
